brighter they grew - of course the measuring acct

of the State would not be detested with
his return - there was a proposition by him
that was no account of the business of
the committee - & the other sum the

that sum - probably very much beyond
any sum that that party had
received of the board - but no account of

committee report - that it was not
advised to print it with the proceedings
of course - & had made a great deal
of money in all the - some of the

an unfair practice - meant
to be for the own benefit - & operation

that charge was nowhere - big drafts
& the Board ought beyond - & that

I don't tell you how much pleasure we are had in your letters
for - your account for Oregon - & the last via Baltimore
continue to write full accounts of every thing we will attend
to all your injunctions regarding them - We read parts to
friends & take care to preserve them as we consider some of them
crack letters - We will do all we can for the Benefices - I don't
doubt we shall be satisfactory - we shall polish the boon - which
already shines with its recent rubbing - - The Colon law was lost
on that their sending - Broadman - believed will was given to
the last - moved & reconsider - to speak - but was gagged down by "previous"
& now suggests new Petitions & moves their reference to next Legislature!!
